

# Technical Bulletin

**Type:** Service Bulletin

Date: December 2020

**Attention:** Service and Parts Managers

No: TCM 0086A-B

ICM 0062-B

**Product:** Various

**Issue:** Replacement parts for display board 59004028 and various HV Boards

**Warranty:** Standard product warranty applies

**Action:** Display board 59004028 is no longer available due to a vendor supply issue. It will be necessary to replace both the display board and the HV board with the current production parts. Refer to the following chart for the appropriate boards to use for the various models.

**NOTE:** Old boards were manufactured by INVENSYS and were green. Current production boards are manufactured by CONTROL PRODUCTS and may be blue or green. The display and HV board **must be made by the same manufacturer for the unit to operate properly**. For example, a display board made by Invensys with an HV board made by Control Products will not work and will result in a blank display. The manufacturer's name is printed on the part.
