

## All New MMS/RMS Series

ACP, Inc., is pleased to introduce the all new MMS/RMS series of commercial microwave ovens. The redesigned series features a new look with new 'Made in the USA' quality.

RMS and MMS ovens are designed for low volume commercial applications including breakrooms, dessert stations, coffee shops, convenience stores, and vending. The intuitive controls and small footprint make them ideal for self-serve heat-and-go applications. Available with touchpad or dial controls.

## What is New?

## Built in the USA

ACP is proud to bring the production of its Value Line commercial microwaves home, to Cedar Rapids, Iowa, furthering its role as the only US manufacturer of commercial microwave ovens.

# New Modern Look and Feel

New design perfect for broader applications – looks as good in the lunchroom as it does in the kitchen.

# New Touchpad Controls

Larger landing zones, easier to read selections, higher contrast display. Now with 4 cooking stages for programming flexibility.

## Touch Control Models

- 20 programmable menu items
- 4 cooking stages
- 5 power levels

## Dial Control Models

- 6:00 light up dial timer
- 100% power only
- Auto reset to zero when cooking is interrupted
